Come along and find out more about what YOU as parents can do you to support your child outside the school environment to adopt a “You can do it” attitude.

The “YOU CAN DO IT” program is currently implemented as a strategy to ensure that ALL children achieve their FULL potential. It introduces the children to the skills to cope with life, bounce back from the bad stuff, be confident, persistent, organised and to get along with others, which include the most important things we can teach our children.

The session will provide parents with some of the tools and techniques to adopt at home to support your children in achieving academically and more importantly help you to support your child’s social and emotional well being. The “YOU CAN DO IT” currently comprises approximately 25% of the Health curriculum and covers all the values within the curriculum framework.
